Project L.E.A.D.

After-School Enrichment

The Project L.E.A.D., After-School Enrichment Program was designed to meet the needs of the community it serves as well as the individual needs of the students that will benefit from a safe, structured program for educational and moral enhancement. At, First and Goal, Inc., it is our goal to provide a service that will enrich, equip and empower at-risk youth between the hours of 2:30pm and 6:00pm. Statistics show that most juvenile crimes takes place between the hours of 2:00pm and 8:00 pm, and that children are at much greater risk of being the victims of crime during these “after-school” hours that are lack adequate supervision or supervision is non-existent. With this in mind First and Goal, Inc. provides at-risk youth with a safe environment that will encourage them to become effective members of society, instead of statistics.

Understanding that the most effective means for helping youth is to personalize our approach, it is our goal to provide “consistent personal attention.” The after-school enrichment program creates a positive atmosphere to promote education, moral development and proactive social behavior. As an essential part of the program students will have access to various outlets and resources daily.

In efforts to provide students with various ways to gain an understanding of the program, Project L.E.A.D. instructors incorporate challenging, competitive games and activities to enhance leadership skills and positive social interaction with students from very diverse backgrounds.

Components of Project L.E.A.D

Homework Assistance - Assists youth with homework and other program activities.

Computer Technology - Provide technological assistance to students to bridge the digital divide. Planned curriculum will include keyboarding, web design and homework assistance.

Youth Leadership and Enrichment - Provides training for youth regarding character education, health and anti-drug activities, leadership training and other enrichment activities.

Project Goals

Project L.E.A.D. operates with the intent to:

- 1) Provide a fun and safe place for students during after school hours.
- 2) Provide positive interaction with caring adults.
- 3) Encourage and develop life skills, respect, and positive social interaction.
- 4) Provide exposure to a variety of educational outlets and resources.
